Educating for a Just and Secure Society

## About Us

We are a unique high school in Karmiel, Israel that educates kids to build a just and equal society. We provide a supportive and nurturing environment for students in grades 9-12 to thrive and reach their full potential. Our school offers three main tracks: horsemanship, photography, and dog training.

## Our Students

Our school has 140 students who have struggled in typical educational settings. We offer a unique opportunity for them to learn and grow in a supportive environment. Our current students' success has inspired us to expand our educational kennel program and build more opportunities for students.

## Help us Grow

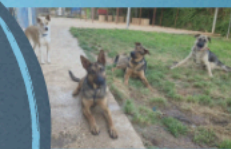

**We currently have a yard with five dog kennels that do not meet our needs.**

**Our goal is to expand and improve the kennel facility to host more dogs and provide better amenities for both the students and the dogs.**

**Please donate and together, we will make it happen.**

## Educational Kennel Program

Our educational kennel program is an amazing opportunity for at-risk youth to learn valuable skills and gain confidence by working with stray dogs. The program is unique because the students learn responsibility by training and caring for the dogs. This gives the students a sense of purpose while the dogs get unconditional love and hope for a forever home.
